

Art on Wheels
Bringing Art Classes to You

May 22, 2009

Dear Principal,

Thank you for the opportunity to introduce Art on Wheels, a special Art & Computer Enrichment Program that you can offer as a benefit of your school. We are working with Oak Mesa and Shull elementary schools in addition to other local schools and facilities, and we don't want your school to miss out! We had great response to our Reflections workshop at Oak Mesa last fall and have a lot of interest in weekly classes.

Art on Wheels is a community service of CREATOR'S touch, an art and computer instruction facility based in La Verne. My name is Rochelle Breckenridge and I am the Owner and Director. I graduated from Azusa Pacific University with an Art degree in both studio and teaching concentrations. I have over 10 years experience developing and operating art programs. Our caring instructors will come to your facility during or after school hours to bring students a high quality art experience. Whether you are looking to expand your art offerings or begin a new program, we would be honored to help educate your students.

Our Goal Is To Bring You More Than The Average Enrichment Program:

- **FREE Trial Class on your campus.**
- **We love to support our local schools.** We donate Gift Certificates for your fundraisers as well as Achievement Awards for students deserving acknowledgement in any area. Values up to \$145 each. Further, if we assist your events by providing a craft activity, face painting, or a caricature artist, we will donate all profits to your school.
- **Partial and Full Scholarships** for students facing financial hardship.
- **Art shows** give students an opportunity to display their work and feel a sense of accomplishment.
- **Many art and computer course options** as well as **specialty workshops** (such as for Reflections or ACSI Art Contests and California Missions Projects) resulting in a well-rounded art education.
- **Fun, educational classes for ages two and older.** Skills and techniques learned benefit students academically. Parents notice improvement in fine motor skills, attention span, and self-confidence.
- **Teachers are artists who are trained in our curriculum and teaching methods** to ensure your students learn proper techniques and receive a strong art education.
- **Projects are appropriate to each student's skill level.** Beginning or younger students should never feel left behind and advanced students are able to excel. This is possible due to our curriculum, teaching methods, small student-teacher ratio, and hands-on instruction.
- **Parent/Teacher meetings.** Parents are encouraged to discuss progress, questions, or concerns.
- **Portfolio development.** We offer customized programs at your facility or our studio.
- **Easy registration process.** We do not require any preparation by your office. We collect all registration forms from parents, process payments and prepare rosters.
- **References Available.** We have worked with many schools and City Recreation Departments.

If you have any questions or would like a detailed information kit, please call our office at 909-297-3368 or email us at info@CREATORStouch.biz. For more details about us and to **view our student gallery**, you may also visit our website at **www.CREATORStouch.biz**. Thank you for your time.

Sincerely,

Rochelle Breckenridge

Rochelle Breckenridge, Owner and Director
